Prompt 06
Create a professionally formatted, downloadable PDF containing ONLY the prompts, requests, instructions, and tasks that I asked within this chat history.

Important Rules:

- Include ONLY the messages written by me (the user).
- Do NOT include any assistant responses.
- Do NOT include explanations, interpretations, summaries, assumptions, or generated content.
- Do NOT rewrite, improve, expand, or modify my prompts.
- Preserve the exact wording of my requests wherever possible.
- Maintain the original sequence in which the prompts were asked.
- Retain repeated prompts if they were asked multiple times.
- Include follow-up instructions and clarifications exactly as they were provided.

Document Structure:

1. Cover Page
   Title: "Chat Prompt Archive"
   Subtitle: "Complete Collection of User Requests"

2. Table of Contents

3. Complete Prompt Log
   - Every prompt I asked in the chat
   - Arranged chronologically

- One entry per prompt
- Include timestamps if available

4. Prompt Groups (Optional Organization)
- Documentation Requests
- Application Development Requests
- Feature Enhancement Requests
- Code Generation Requests
- PDF Generation Requests
- UI/UX Requests
- Data Export & Reporting Requests
- Other Requests

5. Raw Conversation Prompt Archive
- Exact user messages only
- No assistant content
- No edits
- No summaries

Formatting Requirements:

- Professional PDF layout
- Clean typography
- Page numbers
- Section dividers
- Consistent formatting
- Preserve original prompt text exactly as entered
- Do not omit any user request found in the chat

Final Output:

Generate a downloadable PDF that contains every prompt I asked in this chat history and nothing else. The document should serve as a complete archive of all user-submitted prompts from the conversation. html css js

---

Prompt 07

Create a professionally formatted, downloadable PDF containing ONLY the prompts, requests, instructions, and tasks that I asked within this chat history.

Important Rules:

- Include ONLY the messages written by me (the user).
- Do NOT include any assistant responses.
- Do NOT include explanations, interpretations, summaries, assumptions, or generated content.
- Do NOT rewrite, improve, expand, or modify my prompts.
- Preserve the exact wording of my requests wherever possible.
- Maintain the original sequence in which the prompts were asked.
